EDUCATION

Indian Institute of Information Technology, Nagpur

Dec 2021 – Jun 2025

B.Tech in Electronics and Communication Engineering

EXPERIENCE

Bhasruti Advance Engineering Solutions

Aug 2024 – Jun 2025

Data Analyst Intern

- Designed a **centralized data pipeline** integrating multiple data sources, enhancing data accessibility by **30%**.
- Built **ML-based forecasting models** to predict operational efficiency, reducing equipment failures by **25%**.
- Automated **ETL** workflows for reporting using **Python** and **SQL**, saving over **15 hours/month** in manual reporting.
- Collaborated with cross-functional teams to define data requirements via **BRD** and **FRD** documentation, reducing requirement gaps by **30%**.
- Developed a **prompt-driven chatbot** for water treatment plant (WTP) operational insights and automated query resolution.

PROJECTS

Real-Time Stock Market Analytics | *Python, Apache Kafka, PySpark, Databricks, Delta Lake*

[Link](#)

- Engineered a real-time Kafka streaming pipeline processing **184K+ daily** records across **120+ tickers**, achieving **sub-100ms** end-to-end ingestion latency.
- Built a Medallion Architecture (**Bronze → Silver → Gold**) on **Databricks** using **PySpark**, enabling automated data cleansing and aggregation across 3 pipeline layers.
- Implemented automated data quality checks (**null validation, deduplication, anomaly detection**), maintaining a **99.87%** data quality score.
- Constructed interactive Databricks **SQL BI dashboards** with **9+ visualizations**, delivering real-time volatility tracking, risk heatmaps, and automated price spike alerts for downstream analysis.

Data Pipeline for Spotify | *Python, Amazon Web Services, Apache Airflow*

[Link](#)

- Built a serverless AWS data pipeline (**Lambda → S3 → Airflow → Athena**) automating daily extraction and transformation of **180+ Spotify tracks** with zero manual intervention.
- Designed a **two-zone S3 data lake** leveraging **AWS Glue** for automatic schema detection and **Amazon Athena** for serverless SQL analytics, eliminating the need for dedicated database infrastructure.
- Orchestrated daily **ETL workflows** using **Apache Airflow DAGs** with built-in retry logic and end-to-end monitoring via **EventBridge** cron scheduling.

TECHNICAL SKILLS

Languages : Python, SQL, C/C++.

Tools : PostgreSQL, PySpark, Apache Airflow, Apache Kafka, dbt, MongoDB, Looker, PowerBI, Git.

Platforms : AWS (S3, EC2, lambda, glue), Athena, DataBricks, Google Cloud Storage, Snowflake.

Core Skills : DSA, Data Pipeline Development, ETL/ELT, Datalake and Warehouse, DBMS, Communication.

POSITIONS OF RESPONSIBILITY

Cultural Secretary – IIITN

Aug 2023 – Jul 2024

Student Activity Council (SAC)

- Led a team of **215+ members** and successfully managed **30+ events over 2 days**, ensuring smooth coordination across all functions.
- Managed budgeting and operations, reducing **execution delays by 50%** through structured documentation and planning.
- Secured sponsorships worth **Rs. 7,00,000** by presenting event proposals and sponsorship decks to external stakeholders.

Cadence Management Group

Mar 2024 – Present

Founder

- Deployed operational frameworks for client lifecycle management, reducing **cycle time by 25%** and enabling a **3×** increase in annual client capacity.
- Led B2B negotiations and financial planning, generating **Rs. 5L+ in revenue** within 6 months at **80% profit margins**.
- Directed complex production cycles for major music labels, achieving **100% on-time delivery** and zero compliance breaches across all Q3 projects.
